SUMMARY

Data Science undergraduate with experience as a Data Analyst Intern at IYAP, applying Monday.com for data management, dashboards, and reporting to support strategic decisions. Skilled in Python, SQL, R, Java, and C++, with project-based expertise in machine learning and deep learning. Proficient in data visualization (Power BI), cloud platforms (AWS, Azure), and data warehousing. Strong analytical and problem-solving abilities with a focus on delivering actionable insights.

WORK EXPERIENCE

Associate Data Analyst & AI Engineer, Agrithmics **February 2026 - Present**

- Led development of interactive dashboards for plantation performance tracking
- Optimized data pipelines for AI model training and improved efficiency
- Implemented automated reporting workflows for faster decision-making

Data Analytics & AI Development Intern , Agrithmics **November 2025 - January 2026**

- Designed interactive dashboards to visualize plantation performance and support decision-making
- Preprocessed and structured large datasets for AI model training and optimization

Data Analyst Intern, International Youth Alliance for Peace (IYAP) **March 2025 - October 2025**

- Utilized Monday.com to manage data, build dashboards, and track project performance
- Conducted data analysis and generated reports to support strategic planning

IT Operator, Crown Global International Pvt Ltd **July 2024 - February 2025**

- Managed digital record-keeping systems and ensured accuracy of computerized accounts
- Performed system maintenance and supported branding operations through media coordination

Freelance Tutor **January 2023 - Present**

- Provided personalized tutoring sessions to improve students' understanding and academic performance.

Academic Administrator, Master Academy **January 2023-January 2024**

- Oversaw academic operations to ensure smooth coordination of curriculum and faculty activities.
- Managed student affairs to support effective educational processes and communication.

Telesales Executive, Icon International BPO Solution **June 2022 - August 2022**

- Engaged with customers to promote products and drive sales effectively.

EDUCATION

Bachelor of Science in Information Technology specialization in Data Science **January 2025 - Now**
Sri Lanka Institute of Information Technology (SLIIT)
CGPA - 3.25/4.00

Higher Diploma in Information Technology **October 2022 - November 2024**
Sri Lanka Institute of Information Technology (SLIIT)

Cambridge Advanced Level **September 2020 - May 2022**
Lyceum International School, Sri Lanka
Results - 1A* 1A 1C

Cambridge Ordinary Level **September 2010 - May 2020**
Lyceum International School, Sri Lanka
Results - 2A* 2A 2B 1C

COURSES

- **R for Data Science: Analysis and Visualization** – LinkedIn Learning
- **Python Data Analysis** – LinkedIn Learning
- **Getting Started with Power BI** – LinkedIn Learning
- **Oracle Database 19c** – LinkedIn Learning
- **Introduction to Artificial Intelligence** – LinkedIn Learning
- **Information Systems Auditing Controls and Assurance** – Coursera
- **AWS Cloud Computing Certifications** – AWS
- **Microsoft Azure Cloud Certifications** – Microsoft
- **AI/ML Engineer (Stage 1 & 2)** – The Centre for Open and Distance Education, Faculty of Computing, SLIIT

SKILLS

- Python & Java Programming
- C/C++ & R Programming
- Full-Stack Web Development (FastAPI, React)
- Cloud Platforms: AWS & Microsoft Azure
- SQL & Data Management (Oracle, OLAP, ETL, Data Modeling)
- Power BI, Monday.com & BI Reporting
- Advanced Excel & Data Analysis
- Version Control: Git
- Problem-Solving & Stakeholder Management
- Information Systems Auditing, Controls & Risk Assessment
- AI & Machine Learning (Scikit-Learn, NLP, TF-IDF, Text Preprocessing)
- Data Visualization (Matplotlib, Seaborn, Power BI)
- Deep Learning (TensorFlow / PyTorch)

PROJECTS

- **Ride-Hailing AI – Data Mining & Prediction System**

Built a full ML pipeline to mine ride-booking data, predict surge windows, forecast monthly spend, and discover route/segment patterns. Delivered insights and subscription recommendations through an interactive Streamlit dashboard.

- **Hotel Booking Data Warehouse Development**

Designed and implemented a data warehouse for hotel booking data, integrating multiple sources for analytics. Supports OLAP queries, trend analysis, and business intelligence reporting to optimize bookings and revenue.

- **Customer Churn Prediction Model**

Developed a predictive model using machine learning to identify customers at risk of churn. Utilizes historical data, feature engineering, and classification algorithms to support proactive retention strategies.

- **Comparative Analysis & Implementation of StyleGAN Architectures**

StyleGAN & StyleGAN2 Implementation Analyzed StyleGAN research to identify key algorithmic gaps. Engineered a custom Python implementation to address these limitations. Successfully translated complex deep learning theory into functional code.

- **Tourism AI – Multi-Agent Travel Optimization System**

Engineered a multi-agent AI system using the Gemini API and LangGraph to automate personalized travel itinerary generation. Orchestrated specialized agents for real-time logistics optimization within a scalable FastAPI and React full-stack application.
